

Commercial Vacuum Sweepers

PF2004

PF2008

- 5 position height adjustment (ratchet foot operated) for any carpet type
- Extra large 1728 cubic inch bag capacity with oversize clean out chamber
- 3 inch diameter heavy-duty brush roll
- Huge 7 inch metal fan
- Folding steel handle for easy storage

These wide area vacuum sweepers are designed for large building carpet maintenance jobs. They are perfect for auditoriums, stadiums, churches, and schools. Not only does the large 24 inch or 28 inch cleaning path get the job done faster, these sweepers will pick up debris that would clog conventional vacuums. You can pick up objects as large as a crushed cigarette package without stopping the sweeping process.
