EXCELLENT CARPET CLEANER:

Bonnet & Traffic Lane Carpet Cleaner is a new generation cleaner formulated specifically for use with the bonnet system. Dry and wet solvents blended with soil emulsifying wetting agents to provide quick penetration and transfer of soil from carpeting to the bonnet.

A non-foaming formula, it leaves no soapy, sticky, or tacky residue in carpeting to contribute to resoiling. Carpets look and stay fresh and clean.

It is recommended as a corrective and preventative maintenance cleaner. Used as part of a carpet care maintenance program, it preserves carpet appearance and prolongs carpet life.

DRIES FAST:

Fast drying solvents form the active ingredients base of Bonnet & Traffic Lane Carpet Cleaner. Overwetting is eliminated. In addition, friction between carpeting and the bonnet pad enhances drying time. It's efficient cleaning characteristics and fast drying time (15 to 45 minutes, depending on soil levels) makes it an excellent traffic lane cleaner.

NO SPECIAL EQUIPMENT NEEDED:

The bonnet procedure requires a conventional floor machine, a pad holder, and a bonnet. In most instances, little or no added investment in equipment is needed.

SAVES TIME AND LABOR:

One man with a floor machine and smooth, absorbent carpet pad can perform intermediate touch up on as much as 3,000 square feet per hour. A highly trafficked area can be "quick cleaned" in a matter of minutes.

EXCELLENT TRAFFIC LANE CLEANER:

Bonnet & Traffic Lane Carpet Cleaner is recommended for "quick cleaning" heavily

trafficked areas. Pre-treat heavily soiled areas of carpeting with Bonnet & Traffic Lane Carpet Cleaner prior to shampooing or extracting.

DIRECTIONS FOR USE:

Some individuals may be sensitive to ingredients in this product. Before using, read product label and MSD sheet. Wet floors may be slippery. Prevent pedestrian traffic with signs or barricades.

NOTE: For best results, thoroughly vacuum carpet before cleaning.

Recommended Dilutions

Light Cleaning Tasks -- 1:8
 Normal Soil Conditions -- 1:6
 Heavy Cleaning/Renovation -- 1:3

MACHINE CLEANING LARGE AREAS:

1. Mix solution in Spartasprayer or other pump up/pressure sprayer type applicator.
2. Pre-treat traffic lanes, spots and stains with Bonnet & Traffic Lane Carpet Cleaner. Pre-treat dry bonnet pads and proceed with general carpet cleaning as follows.
3. Section carpet into 6' x 12' areas. Holding nozzle 16" to 20" from carpet, apply Bonnet & Traffic Lane Carpet Cleaner in 6' widths. Spray under desks and furniture.
4. For light soil, scrub immediately after spraying. For heavy soil, wait 10 minutes. Turn and change bonnet pads frequently.

IMMERSION METHOD:

1. Shake well before using.
2. Immerse bonnet in diluted solution. Wring out and place pad on machine.
3. Turn and change bonnet pads frequently.

TRAFFIC LANE CLEANING:

1. It is recommended for "quick cleaning" in heavy traffic areas.

2. Pre-treat traffic lanes and other heavily soiled areas of carpeting with it prior to shampooing or extracting.

Another way is to:

1. Dry vacuum carpet to remove surface dirt.
2. Fill Spartasprayer with 1 pint of Bonnet & Traffic Lane Carpet Cleaner and add 3 qts of water. This mixture will clean 400 square ft.
3. Spray carpet cleaning pad with Bonnet & Traffic Lane Carpet Cleaner and place wet side down under rotary floor machine.
4. Lightly spray a 3' x 15' area. If a trail of light foam disappears in 4 seconds, you are properly applying the product.
5. Triple spray spots and stains.
6. Scrub across a 3' x 15' area in slow overlapping passes. The pad absorbs dirt and soil. Use both sides of the pad.
7. Carpet should be dry in 30 to 60 minutes.

Be sure to read all Directions, Precautionary and First Aid Statements on product labels before use of this or any Spartan product. If questions remain, consult your employer or a physician. Material Safety Data Sheets for all Spartan products are available from your authorized Spartan distributor or by visiting www.spartanchemical.com.

PACKAGING	
308504	1-gallon (4 per case)

Distributed by:

Label copy is provided in English and Spanish. Secondary labels are also available.
